Abstract

Replace these instructions with the text of your abstract. Please use Times New Roman 12 font size and line spacing 1.0. Limit the text of the **abstract** to a maximum of 300 words. You may add 1 or 2 figures but make sure it doesn't cross one A4 Page. Any image file format that can be imported into this file will be acceptable for publication; to avoid technical problems, we suggest using TIFF (.tif), JPEG (.jpeg/.jpg) or GIF (.gif) files for photographs. The limit for your abstract is ONE PAGE only. Abstracts that do not meet these formatting requirements will be returned. The organizing committee reserves the right to edit abstracts for correct formatting.

Do not change the page and margin formatting which is A4 and 1 inch in each side.

Keywords: Replace this with relevant key words. Maximum Five (5) keywords are allowed. The key words will be helpful to identify reviewers for your manuscript at a latter stage after acceptance of the abstract.

References: (Time New Roman 11 Font size)

Replace the text with references. Use the brief numbered style common in many abstracts, e.g., [1], [2], etc. References should then appear in numerical order in the reference list, and should use the following abbreviated style:

[1] Author A. B. and Author C. D. (2004) PSI, 89, 1XXX–1XXX.

Journal title abbreviations should be of ISO (International Organization for Standardization) for general disciplines, NLM (National Library of Medicine) for biomedical and life sciences, and CASSI (CAS Source Index) for chemistry and related fields.

NOTE: First Author / Corresponding Author should be the presenting author. Presenting Author should mandatorily register for the Conference. (Remove all the instructions before submitting the abstract)
